Dear Friends,

Stockton made headlines last year as one of the most dangerous cities in both California AND the nation. Unfortunately, this news doesn't come as a surprise to those of us in the victim services field as we are called to respond to aspects of this violence 24 hours a day, 7 days a week.

So, in our efforts to fulfill our mission – we have a choice to make: accept our community for what it is OR come together to change the landscape. We know, first hand, that offering immediate crisis intervention is only the initial phase; healing and self-sufficiency need more support and take much longer.

Please **JOIN US** as we share the stories of three survivors. Hear from them what it's taken to turn their trauma into triumph. Their journeys, like many of ours, are not yet over, but they are on the path to healing, self-sufficiency and making great impact!
